

# \$10,000,000,000 FROM 15,000,000, NEXT LOAN FIGURES

Ten billion dollars will be subscribed to the next Liberty Loan by approximately 15,000,000 individual subscribers.

This is the expectation of the officials of the Government in charge of preparation of the next campaign which will begin probably the latter part of February. It is based on the fact that since the closing of the last loan, the Government officials have been steadily at work organizing a selling force for the next one, and today have intact a better organization than any which existed during the earlier campaign.

The sale of War Savings stamps is going well, according to preliminary reports which have been received. About \$30,000,000 in these little stamps already have been sold. There is no way of obtaining definite returns from the whole country as the individual sales are so small that reports cannot be sent in as fast as they are made.

As the year goes on, it is expected the volume of sales of these stamps will increase because the educational campaign now in progress will have had time to reach the people.
